

# ENVIRONMENTAL, HEALTH AND SAFETY POLICY

MDS Nordion provides a safe and healthy working environment for its employees, supplies products and services that fulfill safety & health-related requirements, and ensures protection of the natural environment by using environmentally sound operating practices.

## MDS Nordion's Environmental, Health and Safety guiding principles are:

**COMPLIANCE** | MDS Nordion commits to complying with all environmental, health and safety laws and regulations relevant to its operations, and other requirements to which MDS Nordion subscribes.

**PREVENTION OF POLLUTION** | MDS Nordion commits to ensuring safe working conditions and environmental integrity by using a management system and training designed to prevent pollution and to prevent any unnecessary risks to human health under normal operating conditions and in the event of an emergency.

**ALARA** | MDS Nordion commits to keep the exposure to radiation for its employees, the community and the environment as low as reasonably achievable (ALARA), with social and economic factors considered.

**CONTINUOUS IMPROVEMENT** | MDS Nordion commits to continually reviewing its operations and seek new opportunities to improve its environmental, health and safety performance.
